

## **DOUG FALK**

### **CHIEF INFORMATION OFFICER, ARMED SERVICES YMCA**

---

Doug Falk is the Chief Information Officer for the Armed Services YMCA (ASYMCA) National Headquarters. In his role at the ASYMCA, Doug is responsible for overseeing the strategic planning, development, implementation, and maintenance of the organization's information technology (IT) initiatives. This includes ensuring that IT systems and processes align with the organization's strategic goals, enhance its capabilities, support development, and enhance the core programs that strengthen and support military families.

Doug has enjoyed an IT career spanning over 30 years, and through his work, is committed to serving organizations with a strong mission of helping others. He most recently served in executive technology leadership positions at the National Student Clearinghouse, a non-profit organization serving high schools and post-secondary institutions and learners in attaining successful educational outcomes.

Doug holds an MS in Information Systems Technology from George Washington University and a BS degree in Computer Information Systems from DeVry Institute of Technology.

Doug is currently lives in Haymarket, VA with his wife and their two miniature goldendoodles. They have two adult children.

When he is not at work, Doug enjoys spending time with his family, golfing, and restoring classic cars.
